REMINDERS

APP SCREENS	WHAT'S IN IT?
 <p>The screenshot shows the Google Play Protect interface. At the top, it says 'Google Play Protect' with a shield icon. Below that, it says 'App scan recommended'. The app name 'reminders' is displayed with its icon. A message states: 'Play Protect hasn't seen this app before. To protect your device and data, send some info about the app to Google for scanning before you install.' There is a 'More details' link with a dropdown arrow. At the bottom, there are two buttons: 'Scan app' and 'Don't install app'.</p>	<p>Double click on the downloaded APK from the downloaded section.</p> <p>You will be prompted with this screen.</p> <ol style="list-style-type: none">1. Click on 'More details' and then2. Click on 'Install without scanning' and continue
